# OpenText Legal Hold

Drive error-free, efficient and defensible legal hold and preservation tasks, harnessing the power of automation and the cloud

**Minimize risk and eliminate costly mistakes** with proven, defensible legal hold technology used in 45+ countries

**Increase efficiency** with automation

**Apply expert workflows** designed to meet specific legal requirements

**Reduce costs with cloud deployment,** elimination of IT CapEx and flat-fee licenses

**OpenText™ Legal Hold reduces the complexity and pain of legal holds and data preservation efforts. It automates interrelated hold, preservation and collection activities to drive greater efficiency and control over data for legal, HR, compliance and IT teams.**

Centralizing and standardizing the legal hold workflow through an easy-to-use solution allows users to save time wasted on manual or clunky legal hold processes. Expert workflows help to minimize risk and ensure compliance.

### OpenText Legal Hold features

**Legal holds issuance and tracking**

- Create and distribute hold notices in minutes
- Track acknowledgements
- Send automated reminders

**Integration and synchronization with IT and HR systems**

- Connect to corporate systems, including internal email and HR applications and Microsoft® Office 365\*
- Make custodian selection and legal hold issuance simple and straightforward
- No agents to install or manage

**Employee questionnaires**

- Create and manage web-based employee and custodian interviews with suggested expert questions, templates and control tracking
- Notify and survey key employees to gather important information and identify relevant data sources and documents
- Further the investigative process by identifying key custodians, key data sources and other involved parties
- Use response analysis as part of a greater legal, security or records management strategy

**Automated enterprise triggers for IT task suspension**

- Automate IT task suspensions in accordance with email and data retention policies
- Prevent inadvertent data spoliation
- Preserve emails and files for exiting or departed employees

Legal Hold is deployed quickly through a secure cloud environment, with no hardware or software to purchase, manage and maintain. Organizations can start using it immediately for all legal hold and preservation activities. It automates many key mechanics of defensible preservation and uses proven expert workflows for every stage of the process, from the inception of a hold through case closure.
